

World Academic – Industry Research Collaboration Organization (WAIRCO) is a non-profit organization that promotes basic sciences, science & engineering, and information technology research worldwide without any discrimination. It works as a bridge between the students, researchers and academicians of various disciplines and the experienced professionals from the industry through the series of activities such as workshops, seminars, symposiums, conferences and journals. WAIRCO depends on researchers, academicians and corporate support for bridging the academic gap by establishing the relationships with existing organizations and customizing relationships with standard bodies.

The main aim and objective of this organization is to promote new research and scientific applications in the field of several communities such as Computing and Information Technology, Electrical Engineering, Electronics Engineering etc. and allied fields. WAIRCO provides high quality and flexible information solutions to researchers. We currently publish international journals and conduct workshops and conferences all around the globe.

The WAIRCO is also supporting the Industrial or Research Organizations and/or Academic Institutions to host a National/International Conference at their venue with the Technical support from WAIRCO. To avail this opportunity the Organizations/Institutions must be members of WAIRCO and with a Memorandum of Understanding from both sides duly signed by the Head of the Organization/Institution.

The Memorandum of Understanding duly signed by the Head of the Organization / Institution shall be sent to the [worldairco@gmail.com](mailto:worldairco@gmail.com) and you will receive the same from WAIRCO within four working days.
